AROMATHERAPY USES

Aromatherapy is a technique dating back in time, with current research validating the new and traditional uses of essential oils. It is useful for preventative healthcare but does not replace a doctor's diagnosis. We offer therapeutic services, essential oil classes, and high quality products to help you relax and restore balance.

SAFETY

With proper use, essential oils offer an enjoyable and fragrant therapy that complements other treatments. To avoid allergic reaction, test an oil by applying a drop inside the elbow and removing with vegetable oil if irritated.

ABOUT US

Our signature blends are artfully created by the company's founder, Linda Byington, Registered Aromatherapist. Linda received a Diploma in Aromatherapy, with Honors, from the American College of Healthcare Sciences. Linda is registered with the Aromatherapy Registration Council and is a member of Associated Bodywork & Massage Professionals. She offers lectures and hands-on workshops on aromatherapy.
